THE JOURNEY CONTINUES

TRANSFORMATION

2019

TPE enters 2019 with a focus on growing our rental business across every product line while also launching our patented ZEVAC® and ZEVAC-Q® equipment for emission-less blowdowns. We are hiring, building equipment, and opening new locations. 2019 will be our best year yet.

A NEW HOME

2018

TPE Relocates to our new facility in Tulsa, OK. ZEVAC® field trials successfully completed.

GROWING FAMILY

2017

Our first full-time hire other than the founders, Kristina Barnes joins TPE as our Equipment Coordinator, fully dedicated to making sure our equipment is where it should be, when it should be.

GROWING FLEET

2016

Completed our fleet of 3" - 42" high pressure WHOLE HOG® traps, we also added a 2nd fleet of mid-size traps plus a fleet of separators.

OPERATIONS BEGIN

2015

With our initial mini-fleet of WHOLE HOG® rental launchers & receivers, TPE commenced rental operations.

FORMATION

2014

TPE is founded by Brad Sando and Doug Sahm and the initial mini-fleet of rental traps was constructed.

FLARES

TRADITIONAL EMISSION CONTROL

MOBILE FLARES

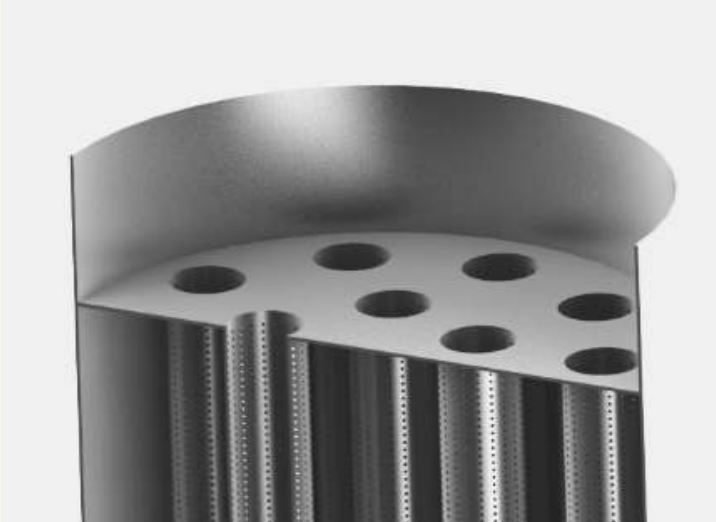

Fast to setup, easy to use. TPE Mobile flares are a responsible solution to methane, VOC, and hazardous liquids combustion.

FOLLOW US

NO-SQUEAL® SILENCERS

BLOWDOWNS: SILENCED

"One of our receivers is in the right-of-way behind a populated neighborhood. Using the vent silencer when we pig means we don't get complaints from folks. Plus, for those of us on the job standing next to the trap, we can hear each other and communicate, even while the trap is blowing down."

TPE No-Squeal® Silencers. In stock for rental or sale.
